resource, which can reference the	An account of the resource, which may include but is not limited to an abstract or a free-text account. Any description copied from an exisitng source (e.g. image database) should be referenced.	The minimum requirement here is to specify the type of media as specifically as possible (e.g. if it is		An entity responsible for making the resource available. It should include the full URL at which the image can be found.	Typically, a Title will be a name by	recorded in the format DD/MM/ YYYY	can include additional technical metadata (e.g. Portable Network	over the resource. Typically, rights information includes a statement about various property rights associated with the resource, including intellectual property	the subject will be represented using keywords, key phrases, or classification codes. Examples include keywords, theme names and subcategory names used by the	For each resource, provide a brief justification for your reasoning on why this might be a useful resource for your debate topic. Your justification should draw on the design evaluation criteria from Week 2 and should reflect the principles underlying your overarching design choices.
